

Brass ball valve

Product Overview

Valtrix Brass Ball Valves are engineered for reliability, strength, and smooth operation across plumbing and industrial systems.

Manufactured from high-grade forged brass, the valves feature a two-piece compact design, a nickel-plated brass ball, and PTFE seats for long-term durability and zero leakage performance.

The ergonomically designed green lever handle ensures user-friendly operation with a modern look.

Key Features

- Forged brass body for superior strength and corrosion resistance
- Full-bore design for unrestricted flow
- Nickel-plated brass ball and stem for enhanced durability
- Renewable PTFE seats and packing for extended service life
- Compact size, easy to install and maintain
- End connection: BSP parallel threads
- Testing & Certification
- Hydrostatic test pressure: 40 kg/cm²g
- Maximum working pressure: 25 kg/cm²g
- Conforms to international quality standards

Materials of Construction

Components	Materials
Nut	S.S.
Gland	Brass
Gland Seal	PTFE
Connector	Forged Brass
Seat	PTFE
Ball	Forged Brass
Stem	Brass
Body	Forged Brass
Lever	Aluminum

Dimensions (in mm)

Nominal Size	Nominal Size (Inches)	F±2	LL (Approx.)
8	1/4	40	105
10	3/8	45	105
15	1/2	50	105
20	3/4	56	128
25	1	66	128
32	1 1/4	75	170
40	1 1/2	88	170
50	2	105	210
65	2 1/2	124	225
80	3	148	225
100	4	212	240
